RIVER CITY PLAZA

The river that gave birth to New Orleans gives your event a romantic setting.

New Orleans was born on the riverfront. And, almost three centuries later, the riverfront is still central to our city's character. It's the heart and soul of our history, the inspiration for much of our music, art and culture. There's no better place to savor the essence of New Orleans. And there's no place to experience the riverfront like River City Plaza, the waterside venue flexible enough to host an outdoor festival or an intimate gathering graced with starlight.

The Plaza opens out from the magnificent River City Ballroom, taking you right to the water's edge. To be there is memorable, just as your event will be. You can feel the majesty of the Mighty Mississippi, rolling toward the Gulf of Mexico under the dramatically lit twin bridges. You can see the life of the river unfold before you, a colorful pageant of paddlewheel steamboats, massive oceangoing container vessels, tugboats and strings of barges.

Imagine an evening dining and dancing in the seven thousand square foot vaulted pavilion on our broad private wharf. The evening, the river and you. Or consider the possibility of celebrating your own outdoor festival. Or adding the romance of the Plaza to larger events centered in any of our indoor venues. Let your imagination soar. We'll bring it all together with a magic that will enchant your guests and surpass your expectations.
